# GCSE Mathematics Success Programme

# GCSE Mathematics Success Programme

- Do you as a parent, feel frustrated about not being able to support your child, as much as you would like during exam season?
- Is “We don’t do it like that in school” and “We didn’t do it that way when I was in school”, a familiar phrase in your household?
- Would you like to be more informed with modern teaching techniques?
- Do you want to give your child more support, to help achieve their best GCSE results?

**If yes**, then I will parental engagement programs for you! We specialise in aiding, guiding and inspiring parents and guardians to effectively support their children during an exam season.

## Sector Excellence

With decades of teaching experience, at all levels from Headship to Head of Departments, our tutors are sympathetic to your needs and will help you understand modern revision techniques, that have a real impact on your child's studying processes, to ensure they maximize their potential and achieve their best exam grade!

*“The Parental/Learner Programme, has had a huge impact in breaking down barriers to learning at home. Effective parental support plays such an important role, in ensuring ALL our children maximise their potential!”*

**Deputy Headteacher;**  
Llanishen High School

# Supporting schools, supporting communities

Our 'Parental/Learner Support Program' puts families first. Based on the most cutting edge and recent educational research, our support program breaks down the barriers to learning between parent and child, opening a supportive and collaborative approach to achievement.

We work with many schools where a targeted approach enables learners to maximise their potential.

We work with local businesses and sports teams to ensure how to reach families can gain access to our support programs in an environment that they feel comfortable.

## What our parents say...

*"Thanks so much for all your help and support. Enjoyed each session, feel I will be able to support better the next few weeks... Gutted it's over!"*

*"Thank you so much for all your help over the weeks for maths."*

*"We have both enjoyed learning together. It was brilliant to guide us in the right direction, I highly recommend it to parents and children who are going to be sitting GCSE's, as parents we sometimes don't know how to help, so to have the understanding and guidance was fantastic."*

*"Really learning a lot from these classes the guys are fantastic with us and are helping us to help our kids."*

*“Great help in helping me support my son - really effective revision techniques without getting swamped with maths. It has had a really positive effect on my son’s marks.”*

*“These sessions have helped more than I thought they would have, they have helped me understand and prepare my son for his up and coming exams, with plenty of advice on how to put structures in place.”*

*“Thank you so much both for all your help and support. These sessions have helped loads with supporting my son with his maths. Wish these sessions had been in place for my older children.”*
